

RONDO THERAPEUTICS PRE-CLINICAL SCIENTIST POSITION (FULL-TIME, SALARY POSITION) MAY 2022

Rondo Therapeutics is a privately held biotechnology company committed to advancing the field of immuno-oncology with a focus on treating solid tumors that fail to respond to current therapies. Our solution is to create a new class of bispecific antibodies that safely engage the immune system to initiate and sustain a robust anti-tumor response.

Rondo was launched in 2021 by experienced entrepreneurs in the field of immuno-oncology. Rondo has recently raised series A financing led by a world-class syndicate of investors to support the growth of our Alameda, California-based research site.

Position summary

We are seeking an independent and motivated research scientist with a passion for driving innovative research projects that have the potential to make a meaningful difference in the lives of cancer patients. This is a unique opportunity to join an early-stage start-up in a key position, with significant opportunity for growth and advancement as the company expands.

Key responsibilities and learning opportunities

- Establish cell-based assays to support our immuno-oncology research programs.
- Validate reagents and cell lines using techniques such as flow cytometry and ELISA.
- Investigate and validate target biology.
- Build and maintain a cell culture inventory.
- Run antibody mechanism of action studies.
- Develop and manage CRO relationships.
- Mentor and train team members and establish SOPs for the organization.
- Keep up to date on relevant literature, attend and present at conferences when appropriate.
- Provide project leadership, including presenting to internal teams and external collaborators as needed.

Preferred qualifications

- Ph.D. in a Life Sciences related field such as cell biology, genetics or immunology and 0-4 years of post-graduate experience in industry or academia; or a M.S and 4+ years of experience; or a B.S. degree and 6+ years of experience.
- Strong hands-on experience in mammalian cell culture and transfection techniques.
- Extensive experience designing and developing cell-based assays, such as cell viability and proliferation assays, cytokine release assays, mixed lymphocyte reaction assays etc.
- Experience designing and running multi-color flow cytometry panels.
- Familiarity with ELISA, MSD/Luminex, AlphaLISA, TR-FRET or similar techniques.
- Proven track record of problem solving and the ability to pick up new technical skills quickly.
- Strong organizational skills and the ability to manage multiple projects efficiently.
- Clear and effective communication and the ability to build open and collaborative relationships are essential.

- A positive attitude and a strong attention to detail are required.

Bonus qualifications

- A background in cancer biology, immuno-oncology or immunology.
- Experience with discovery and/or development of therapeutic antibodies.
- Experience isolating and conducting assays with primary immune cell types.
- Familiarity with in vivo study design, and experience working with primary tumor samples.

Consider joining our team

At Rondo Therapeutics we believe that our success as a company starts with building a culture based on teamwork, mutual trust, a focus on career growth, and a sense of fun.

If you are a fearless scientist driven to make new discoveries and you value collaboration, respect, and working in a team environment, then we want to hear from you! Join us in our mission to create novel molecules that bring new hope to cancer patients while advancing your career in a merit-based culture.

Our benefits include:

- Competitive compensation packages, with equity and discretionary annual bonuses.
- Comprehensive healthcare plans covering employees 100% for medical, dental, vision, life and disability insurance.
- Access to an employer matched 401(k) savings plan.
- PTO, national holidays and a holiday shutdown.
- Commuter benefits.
- Access to healthcare and dependent care FSA accounts.

Please email your resume and cover letter to jobs@rondotx.com with the Subject Line: “**Preclinical Scientist Position**”. In your cover letter, please outline how your experience aligns with the key responsibilities of this role.

This is a full-time position based in Alameda, CA. Compensation and title are dependent on relevant experience.

Rondo Therapeutics is proud to be an equal opportunity employer and does not discriminate against any employee or applicant for employment because of race, color, national origin, ancestry, creed (religion), gender or gender identity, sexual orientation, military status, citizenship status, age, disability, genetic characteristics, marital status, or any other characteristic protected by applicable law.
